Gregory Smith Pres Lyme Art Ass.
Dear Gregory

Ypur letter was forwarded to me up in Maine Just got home here
last night

(NOT 4)

I have a 1950 Plymouth Car with TWO DOORS and very narrow space
between back of front seats and the front of the back seat To carry pictures
I believe most of them would have to go up on the back seat--- and some
could go in back no doubt(depending on size) -

So with this in mind -please assemble the pictures and let me know when
they are ready and WHERE I can get them, and I will try to pick a decently
cool day and come after them -

I appreciate the difficulty I may have wished on you in asking you
to PICK the group - We are of course flattered to hear that ALL wanted to send -
but the nemes you mention are just the ones I really WANTED as they were the
old timers that were there in the old days -

Du Mond's picture is at the Kent RR station right now---Agent just
telephoned and so informed us--

Please be sure to give titles and PRICES -

Best wishes and kindest regards to you and all the Lyme Artists and we here
are all delighted they you are going to be represented in our coming show
and we will do all we can to publicise the event and the fact that the two
groups are still at least on speaking terms - and maintaining friendly
relations--God Knows there is great need of some UNITY and solidarity among
artists and from observations extending now over half a century I know that
we in the Kent Show have tried (and up till now succeeded in maintaining) the
KIND of standards that have guided the ^{Lyme} ~~Lyme~~ show through its existence .

We never have gone in for wild pictures---- Most of our old members are
dead and the new ones--- as everywhere--- lacking the same
backgrounds we fortunately had-- have ~~some~~ what they call "Advanced"
ideas and some "Modernistic" stuff creeps in but the amazing thing is

our mailing list of patrons that we have built up over the years DONT LIKE THEM
But they do like and BUY (we made I think 28 sales last year) the sane
efforts we show and they never buy the craxy few that creep in once in a
while .

Well God help us all

Hopefully

Nisbet
